

Apple Craft

Upgrade teachers' back-to-school season with a cute paper apple that houses a K-Cup® pod! Simply print the red paper and follow the instructions below.

What You'll Need:

- Our printable
- Scissors
- Tape or glue

Instructions:

1. Once you've printed the two sheets of paper, cut out the two red squares, the green leaf, and the gift tag.

2. Place your paper color side down and fold in half. Open paper back up, turn it 90 degrees, and fold in half again. Open paper back up again.

3. Fold paper in half from corner to corner. Open paper back up, turn it 90 degrees, and fold in half again. Open paper back up again.

4. Fold each of the paper's four corners into the center of the square so that all four corners meet.

5. Take your square and fold the bottom edge to line up with the center, and repeat for the other side. Open it back up, turn 90 degrees, and repeat.

6. Lift up two opposite triangles and lay them flat. As you lift the sides, press them in at the crease, and the top flap will fold up. Lift this flap up and over to form the side of the box.

7. Turn the box 180 degrees and repeat on the other side.

8. Repeat with smaller square!

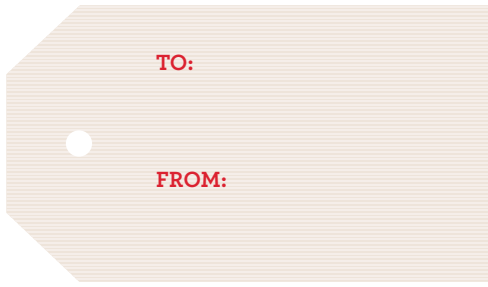

9. Take your cut-out leaf and tape or glue it to the center of the larger square.

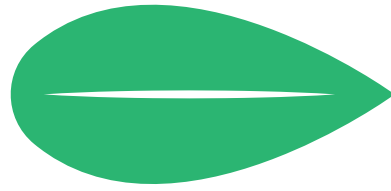

10. Fill out the gift tag and attach it to the leaf with another small piece of tape or dab of glue.

11. The larger square should fit nicely over the smaller square. If you put a K-Cup® pod inside, your box will have a little bit more height.
